

Amy Tu

(669) 285-8010 | amyxtu@berkeley.edu | San Jose, California | [linkedin.com/in/amyxtu](https://www.linkedin.com/in/amyxtu)

EDUCATION

University of California, Berkeley

Expected Graduation: May 2026

Bachelor of Arts in Economics, Minor in Data Science

- Women on Wall Street (Head of Finance), Barbell at Berkeley (President), Women in Computing and Data Science (Project Manager), Undergraduate Economics Association, Project Destined Scholar, Vietnamese Student Association, Alpha Phi Omega, AFX Dance

PROFESSIONAL EXPERIENCE

Tesla Jan 2026 – Present

Data Analytics & Automation Intern

Palo Alto, CA

- Building Python/SQL pipelines, forecasting models, and BI dashboards to automate invoice tracking and improve payment visibility

Bloom Energy

May 2025 – Aug 2025

Business Intelligence Intern

San Jose, CA

- Automated Python/SQL pipelines with scheduling and error-handling, reducing manual processing time by 70% across 80+ contracts
- Built QuickSight dashboards integrating Oracle and Redshift data to provide real-time margin visibility across service contracts
- Developed a scalable backlog liability framework to improve forecast accuracy and support multimillion-dollar contract decisions

Kaiser Permanente

May 2024 – Aug 2024

Software Engineer Intern

Pasadena, CA

- Built Python-based incident response tools for SaaS applications, supporting SOC2, PCI, and HIPAA compliance requirements
- Automated security audits and privacy assessments using Python, streamlining risk reviews and reducing manual compliance work

ServiceNow

Jun 2024 – Aug 2024

Product & Engineering Fellow

San Diego, CA

- Prototyped workflow automation solutions in an agile environment, applying system design principles to streamline approval processes
- Implemented low-code applications on ServiceNow App Engine, collaborating with engineers to build scalable approval workflows

Playhouse

Aug 2023 – May 2024

Software Engineer Intern

San Francisco, CA

- Engineered Augmented Reality (AR) features for web applications using JavaScript, enhancing interactivity and user experience
- Led 20+ workshops on AR tools and Web3 protocols, translating technical research into product insights for cross-functional teams

Google

May 2023 – Aug 2023

Software Engineer (STEP) Intern

Mountain View, CA

- Submitted 18 code changes and 1,500+ lines of code, improving system performance and expanding duration slider functionality
- Optimized Google Play's internal portal UI by developing a custom drawer feature and backend support for 500+ internal active users
- Implemented autocomplete functionality with feature flags, automated tests, and targeted bug fixes to enhance system reliability

LEADERSHIP & EXTRACURRICULARS

Girls Who Code

Oct 2023 – Present

Founder and Lead Instructor

Berkeley, CA

- Founded Berkeley chapter in partnership with Berkeley High and Public Library to expand access to computer science education
- Taught HTML, CSS, and JavaScript to middle/high school students through practical hands-on projects and interactive coding lessons

Becoming Businesswomen

Sept 2023 – Present

Director of Technology

San Francisco, CA

- Organized 30+ annual online workshops and webinars focused on business, leadership, career development, and professional growth
- Managed mentorship program with 100+ professionals, creating 200+ matches and supporting growth for 1,000+ students

Miss Vietnam USA

Jan 2023 – Jan 2025

Miss Vietnam San Jose, Pageant Titleholder

San Jose, CA

- Served as cultural ambassador at events and outreach programs, promoting Vietnamese cultural awareness across the Bay Area
- Volunteered 300+ hours and partnered with nonprofits to raise \$100K+ for underserved families and community organizations

PROJECTS

Chess Strategy Analyzer | Python, SQL, OpenAI API, Streamlit, Stockfish

- Built a chess analysis tool that evaluates uploaded games, identifies blunders, and generates improvement recommendations

Restaurant Recommender | Python, SQL, Yelp API, OpenAI API, Streamlit

- Built an AI recommendation app ranking restaurants by cuisine, budget, distance, ratings, and occasion-specific user preferences

SKILLS & INTERESTS

Technical: Python, SQL, JavaScript, HTML/CSS, Tableau, Power BI, Amazon QuickSight, Redshift, AWS, Advanced Excel, Git/GitHub, APIs, LangChain, OpenAI API, Agile

Languages: English (native), Vietnamese (fluent)

Interests: Competitive Powerlifting, Running, Badminton, Pickleball, Mechanical Keyboards, Snowboarding, Travel
